

# WEB APPS ACCELERATOR

Do you like the convenience of Web Apps (WA) for Dynamics SL, but not the performance or interface? If so, **Web Apps Accelerator (WAA)** is the perfect solution for you.

## Key Features

- Many times faster than stock Web Apps**  
 Stock WA code has been heavily streamlined and debugged. Many bugs still present in stock WA are squashed in WAA.
- Improves user interfaces**
  - ✓ Reduces button clicks and loading times
  - ✓ Adds project filtering, hours filtering, sorting on any column, grouping by project or customer
  - ✓ Adds row numbers, icons to add/edit/delete rows
  - ✓ Simplifies the note and attachment process to provide visual clues about rows with notes
  - ✓ Adds optional graphical chart view of entered hours

## FEATURES

**Upgrades easily from stock Web Apps**

**Improves security with Two-Factor Authentication**

**Integrates with GSA in real-time to look up per diem rate for expense reports**

**Adds optional, customizable timecard validations**

**Improves Time/Expense Approvals**

**Improves Quick Query interface**

## BENEFITS

Same system requirement as stock Web Apps, no need for additional hardware or connectors. Runs on-premises or in the cloud (if your SL database is also cloud-hosted). Frequent product updates.

This optional feature sends an email to the user with a code to enter upon login.

Reduces costly billing errors and invoice rejections for government contractors.

Provides power users a way to build custom validations, such as special OT rules.

WAA presents approvers with the actual source documents, providing a familiar interface for easier review.

Row numbering, highlighting and thousand-separator added to make it easier to view data.

For more information about WAA, contact your SL partner. You can also watch a quick demo by visiting the link below, or by scanning the QR code.
